## Microdermabrasion

### Why microdermabrasion so popular with celebrities?

Microdermabrasion is a skin resurfacing treatment, in which we use only professional products to gently resurface your facial skin, in order to rejuvenate and restore natural glow to the skin. The microdermabrasion procedure is simple and painless AND (this is the best part) is equally effective to surgical procedures (laser skin resurfacing, dermal abrasion etc). It is often referred to as "the lunchtime facial" or "lunchtime peel".

### Why would I want microdermabrasion?

Effective on all skin types, after each microdermabrasion treatment your skin will be glowing with health, revitalised and more youthful. Microdermabrasion can do any or all of the following:

- Revitalise dull skin
- Treat sun-damaged skin
- Reduce enlarged pores
- Reduce the appearance of acne
- Reduce, softer wrinkles & acne scars
- Treats hyper pigmentation & age spots

### How Does the Alpha-Hydroxy Peel Make me look younger?

It's a highly concentrated active cocktail blend of fruit acids which rapidly renews complexion and remove dead skin cells, and also works beautifully with microdermabrasion to enhance the softening and rejuvenating effects, leaving you looking up to 10 years more youthful!
